SUMMARY

Highly motivated and dedicated junior Python developer seeking opportunities to enhance my skills, contribute to meaningful projects, and grow within a dynamic and collaborative team environment.

PROJECTS

E-Wallet RESTful API WEB app

01/2024

Sofia, Bulgaria

Virtual Wallet is a web application designed to provide users with a convenient and efficient way to manage their budgets. The application offers various features, including the ability to send and receive money between users, as well as deposit money from a bank account.

Key Features: Transaction history and analytics, Budget management, Secure authentication and data privacy.

- Tools: SQL, Flask, REST, Postgres, HTML, CSS, Glt
- https://github.com/dimitrov88/Virtual-wallet---Postgres
- https://virtual-wallet-i0gi.onrender.com/

Forum System RESTful API

05/2023

Sofia, Bulgaria

The Forum API project is a powerful web application that allows users to engage in discussions by reading and creating topics, as well as exchanging messages with other users. Administrators are granted additional privileges to manage users, topics, and categories, ensuring smooth operation and organization within the forum.

Key Features: User interaction, User management, Secure authentication.

- Tools: SQL, Fast API, REST, MariaDB, JWT, Glt

Blog WEB app

01/2024

Sofia, Bulgaria

Designed and developed a dynamic and responsive personal blog web application using modern web technologies. Implemented a user-friendly interface allowing for seamless content creation, editing, and deletion.

- Tools: SQLite, Flask, HTML, CSS, Bootstrap
- https://github.com/dimitrov88/New-Blog
